

Engraved Signs

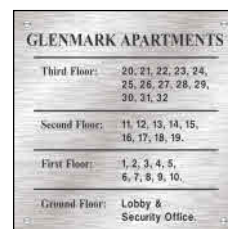

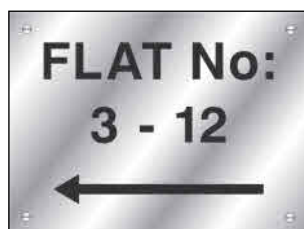

We have our own "State of the Art" engraving equipment. This means that we can get your signs to you much quicker than many other suppliers who sub-contract engraved work to a third party company, adding further delays to your delivery. It is true that engraved signs take a little longer to produce than printed signs. We aim to produce and ship all engraved signs within 3 - 5 days of receiving your order.

WHAT WE CAN ENGRAVE

We can engrave on several different materials:

- Brass
- Anodised Aluminium
- Coloured Plastics (interior use only)
- Metallic Effect Plastics (interior use only)

BRASS SIGNS ON HARDWOOD PLINTH

These Prestige Signs offer a stylish and attractive alternative to standard printed images.

Polished brass is engraved and ink filled, and then mounted on a dark hardwood plinth. The end result is pure quality.

These brass and hardwood signs are suitable for both internal and external use.

These signs are available in 3 sizes:
101mm x 152mm
178mm x 254mm
203mm x 305mm

(sizes refer to the overall size of the wooden plinth. The brass plate is mounted within this plinth and therefore the engraved brass area is slightly smaller than the size stated.)

NO STANDARD RANGE?

We don't have a standard range of engraved signs because we find that people want to tell us what they want, rather than the other way round.

If you have seen something here that has caught your eye or if you have an idea of your own, please don't hesitate to give us a call. We will be happy to quote for any specialist engraved work.

DID YOU KNOW?

We do all our own engraving! This means we are fast as well as affordable! We aim to ship all engraved signs within 3 - 5 days
