

School Minibus Signs

The regulation for minibus signs hasn't changed for 10 years, but have your signs? 10 years ago we would have supplied you with a sign made from cut black self adhesive vinyl stuck onto a standard grade reflective material. These days things are done a bit differently. We understand vinyl cut signs are prone to having bits picked off them, so we now print all of our signs for schools. Also we now use a Diamond grade Reflective material for our minibus signs, just have a look at the difference it makes.

LOOK AT THE DIFFERENCE!

STANDARD REFLECTIVE

DIAMOND GRADE REFLECTIVE

PROMOTE A MESSAGE OF SAFETY WITHIN YOUR SCHOOL

By upgrading your School Transport Safety Signs, you will send out a positive message to pupils and their parents.

WE CARE ABOUT THE SAFETY OF OUR PUPILS

This is the sort of image boosting message that money just can't buy, and it shows the kind of responsible and caring attitude that parents really value.

You will be able to inform the parents of all your pupils about the extra steps you are taking to ensure the safety of their children whilst they are in your care. Make this a positive move for your schools reputation.

NOT RESPONSIBLE FOR YOUR OWN SCHOOL VEHICLES?

If you aren't responsible for your own school vehicles then please tell your chosen School Transport Provider about this product. They too could benefit from using these signs. When did they last upgrade?

DMBF

FRONT OF MINIBUS

DMBF/S	200 x 200	£15.00

DMBB/A	400 x 400	£52.50

INFORMATION

Minibus signs are available in four different materials, each has its own recommended use.

- /S** = Self adhesive for direct application to bodywork
- /P** = 3mm PVC, with 4 suckers for display inside windows
- /M** = Magnetic Sheet, for application to steel bodywork
- /A** = Aluminium for permanent fixing

These signs are also available in two different sizes, small for the front and big for the back of the vehicle.

CAN'T SEE EXACTLY WHAT YOU WANT?

Take a look at our Speedy Special Signs on Page 66.

KEY TO MATERIAL CODE TYPES

- /S** = Self Adhesive Vinyl
- /P** = 3mm PVC
- /A** = 20g Aluminium
- /M** = Magnetic Sheet (for steel panel vehicles)
