

Shown below are some of the sign fixing solutions that we offer. For more information give our sales team a call. With many years of experience we are sure that we can advise you on the best fixing solution to suit your needs.

## SIGN POSTS

We can supply sign posts in any length.

All of our posts are aluminium giving you good durability (Aluminium won't rust!) and strength but without the excessive weight of steel. We supply posts in two diameters 76mm (3 inch) or 50mm (2 inch). If you are unsure of about your requirements for sign fixings you can give us a call and we will talk it over with you. Our friendly sales team have years of experience and are able to advise you on the best fixing system for your individual needs.

We can also supply plastic end caps.

For prices and availability of sign posts give us a call, we are always happy to help.

## POST FIXING CLIPS

We can supply many different variations of high quality lightweight post fixing clips that will provide you with a very strong and practical way of mounting your signs onto posts.

We supply clips in a range of sizes to suit standard posts and even a universal screwband to get around larger posts. We supply clips for both round and square posts. We even supply clips to mount two signs back to back around the same post. For more details on post clips and prices give us a call.

### DID YOU KNOW?

If you order a sign with post fixings from us, please specify the post diameter when placing your order.

### KEY TO MATERIAL CODE TYPES

All standard sign posts are anodised aluminium
