

Signs in Frames

Signs in frames are produced on zintec steel plates in painted steel frames. Because of their robust design these freestanding signs are both weatherproof and stable, perfect for many outdoor applications. All signs in frames are fitted with a carrying handle to make them easier to move around. The total size of the frame is 900mm Tall by 600mm wide. The size of the sign itself is 450mm high x 600mm wide. All prices include sign and frame.

KEY TO MATERIAL CODE TYPES
All Signs in Frames are zintec steel plates in painted steel frames. Recommended for exterior use

All Signs in Frames fold flat for easy storage. These frames are designed to provide durability. Also the metal construction of these signs and their frames make them heavy enough to provide excellent stability in most weather conditions, however if you only require internal freestanding signs why not take a look at our Motspur range of signs on Pages 26 to 29.
